There was some talk of a prospective cold wave, but clear skies and generally warmer temperature were enough for most of the sellers. Local receipts were again heavy and the movement to the Northwestern receiving and milling points was much better than had been expected in view of the recent cold weather in that section. Prominent longs continued to these bedges the process and Chieffer and inued to throw their holdings on the market and Chicago prices were again sharply on the downturn. REPUBLIC SPECIAL
New York, March 12.—Eggs—Receipts to-day 4,530 cases. Receipts were abnormally light, and it would appear that the entire available stock here would be short of regular consumptive demands, but there was an indisposition to take chances either way, which was ascribed to the fact that distributing houses could make any shortage good by drawing supplies from point of production by express. In fact, 1,000 cases were so ordered from Indiana, which was probably one of a number of instances. The sales on the exchange were of 50 cases Western firsts at 19c and 400 cases storage-packed, seller April, at 131c. Refrigerators in light stock. Quotations unchanged.
